Learn the Signs.
Act Early.

You're invited to a webinar!

Thursday, August 1, 2013
2:00 pm until 3:00 pm EST

Join us to learn how the staff at WIC clinics across St. Louis, MO integrated the Centers for Disease Control and

Prevention's (CDC) "Learn the Signs. Act Early." messages and materials into their WIC work and environment to:

- ◆ Raise awareness of early childhood developmental milestones and signs of possible developmental delay
- ◆ Learn what to do when there are concerns about a child's development
- ◆ Help parents monitor their children's development

Take advantage of this FREE webinar to learn how your clinic can do the same.

Access to the live webinar is limited, so register today! For registration, visit: <https://www.surveymonkey.com/s/CDCWebinar>. For problems with registration, please contact Katie Green at: KKGGreen@cdc.gov.

This webinar is presented in partnership by CDC and USDA's Food and Nutrition Service.
